EXPERIMENT-1

AIM: To make a static home page of an e-learning website using HTML.

Code:

```html
<!DOCTYPE html>
<html>
<head>

<title> Course Portal </title>

</head>
<body>

<h1>Course Portal</h1>
<p><b>What new do you want to learn today?        </b>    <input type="text" placeholder="Search.." name= "topic"> </p>
<button>Login</button>
<button>Sign Up</button>

<div>
<p>When choosing a course we have too many questions like from which website to search ?<br> Which course to select? <br> Paid Course? <br>
Free Course? <br> Certified Course? <br> Way too many complexities <br> Say goodbye to all these complications.<br> Find the best courses in
each field and subjects possible from all leading websites at this single portal. <br>
</p>
